

The snowman has two black eyes and has a black smile. He has two black arms one on each side with two finger. There are three small black dots on the second snowball. There are three snowballs the one on the bottom is the biggest, the second is the second biggest, and the snowball on the top is the smallest. He has a dark blue line around the outside of the snow balls and then the inside of the snow balls are light blue. And that is how you make my snowman.
